Desk Microphones

We also wide a good range of desk microphones, these pictures show our main ones.

PMR Range

The Clear-Tel PMR Radio Workstation

Allows the user to employ a hand-held radio as a stand alone desk workstation. This unit is designed for use in command/control and dispatch environments. The unit is simple to use and has the ability to use a range of external accessories. The range currently supplies for Sepura, Motorola and EADS radios.

The Dispatcher Voice Recorder

is plug and play, so you do not need any special drivers to make it work. Simply by connecting the unit to the dispatcher box dataport and each time the PMR radio is connected to the cradle, the voice recorder will record with a date and time stamp.

3 user

The HFRO1 Hands-Free Unit can be controlled by three separate operators (one driver handsfree and two via the accessory port). Each operator controls their Microphone by their own PTT, so one or all operators can transmit at the same time.

The Workstation Dispatcher can be used in or out of vehicles. It has great functionality and small size for great portability. The unit is simple to use and has the ability to use a range of external accessories.

The HF01 Hands-Free Unit is designed to work with most P.M.R radios and mobile in also every environment. The unit is simple to operate and can be used with a whole range of accessories.

2 user

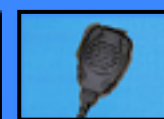

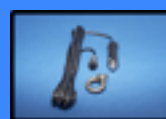

The PC Dispatcher

is a single plug and play device, which is designed to work with most PC's as a stand alone desk microphone. With the option of adding up to five additional accessories. The unit is simple to operate and can be used with a whole range of accessories.

1 user

The HF03 Hands-Free Unit is designed to work with most P.M.R mobile. The unit is simple to operate and can be used with a whole range of accessories

Range of Accessories
