

DVR05 - Mobile Voice Recorder

Record
Facility

The ClearTel DVR05 is a PMR radio and Mobile phone voice recorder. It is plug and play, so you do not need any special drivers to make it work. Simply connect to a mobile or portable radio via an interface lead. The DVR5 voice recorder will record with a date and time stamp. To play the recording, simply connect the unit to a PC via the USB lead and the software will automatically load allowing any recording to be played. The files can also be downloaded for future reference.
